DETAILED ACTION

EXAMINER'S COMMENT

This application is in condition for allowance except for the presence of claims 6-12 to invention non-elected without traverse. Accordingly, claims 6-12 have been cancelled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a lighting device having controller means for transferring, at predetermined time intervals, in response to a standard luminosity reading provided by luminosity measuring means or a usage time measurement provided by usage time measuring means, one or more groups of LEDs between energized and non-energized states (claims 1 and 3). The remaining claims 2, 4, 5, 13 and 14 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1-5, 13 and 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
